PROFILE

I'm Bibek Poudel, a tech enthusiast and CS student passionate about building impactful AI products, with strong expertise in web development.

SKILLS

WEB DEVELOPMENT:

- HTML, CSS, Tailwind CSS, JavaScript, React, Express.js, Node.js, MongoDB, SQL

MACHINE LEARNING & DEEP LEARNING:

- Scikit-Learn, TensorFlow, PyTorch, Keras

DATA SCIENCE & ANALYSIS:

- Numpy, Pandas, Matplotlib, Seaborn

PROGRAMMING & TOOLS:

- Git, Github, Jupyter Notebook, Google Colab

EDUCATION

- Birendra Multiple Campus, Bharatpur - Bsc.Csit (2022 - Current)

- Relevant Courses: C, OOPS, AI, Web Technologies, Net-Centric Computing

- Notre Dame Secondary School, Bandipur - XII (2018 - 2020)

PROJECT

- Front-End Projects:

-Portfolio Website, Amazon Clone, Games(Rock Paper Scissors, Tic-Tac-Toe)

- Data Science Projects:

- **Movie Recommender System:**

Built a Movie Recommender System.

- Used library like Numpy, Pandas, Nltk for preprocessing the data set.
- Used SK learn to create ML model for recommendation.
- Created frontend using Streamlit and deployed on Render.

- **Rag AI Teaching Assistant**

Created a Rag-based teaching assistant which helps to extract meaningful information from videos that it is trained on.

- This context-aware system can guide users with queries related to those videos that it is trained on.
- TechStack Used : OpenAI whisper,BGE-M3,SK-learn,LLM(Llama 3.2)

- **Personal Finance Assistant** | B.Sc. CSIT Final Year Project

Developed a full-stack AI-powered personal finance web application using Nextjs, React enabling users to track, categorize, analyze, and predict personal finances

- Designed and trained three machine learning models in Google Colab – Logistic Regression for transaction auto-categorization (98.27% accuracy), Linear Regression for monthly expense forecasting, and Isolation Forest for real-time anomaly detection
- Built a responsive, modern UI with Tailwind CSS v4 and shadcn/ui featuring a dashboard with spending analytics, budget progress, transaction management, and a dedicated AI insights page
- Designed a PostgreSQL schema using Prisma ORM with full TypeScript type safety and hosted on neon
- Designed a PostgreSQL schema using Prisma ORM with full TypeScript type safety, indexed queries for optimized performance – hosted on Neon cloud
